

Outside product work, I'm usually hiking, working out, or trying to understand why people behave the way they do.

What have I been building?

 **Spotify AI MiniMix**
SEP 2025 - ONGOING

Built an AI music recommendation engine in n8n for mood and occasion sub-playlist curation, using dynamic song-feature selection and improving relevance by 73% versus a rule-based baseline in project testing.

A banner for the 'AI Hike Researcher' project. It features a dark blue background with a light blue header bar. On the left, there is a circular icon with a white mountain and a red location pin. To the right of the icon, the text 'AI Hike Researcher' is displayed in white, with 'AI' in a larger font. Below this, 'JAN 2026 - ONGOING' is written in a smaller, light blue font. The main body of the banner has a dark blue background with white text that reads: 'Interviewed 2 hike organizers to identify planning pain points; architected AI Hike Researcher, a cost and time efficient AI agent that gathers 6 real-time safety signals and personalizes trail filtering, reducing weekly planning time by 98%.' At the bottom, there is a dark blue bar with three circular icons: a red location pin, a red code symbol, and a red location pin.

Product Teardown Series

SEP 2025 - MAR 2026

Ideated, launched, and ran the Foster Tech Club program that made product thinking more social and hands-on; created event marketing, posters, Luma pages, and audience messaging; produced three teardown events with 110+ attendees.

Bumble Barney AI Wingman
FEB 2023

Analyzed 100 one-star Bumble App Store ratings, root-caused the recurring no-matches problem, brainstormed solutions, and proposed Bumble Barney, an AI wingman intended to decrease no matches by 10%. Won 2nd rank in the February NextLeap Capstone project.

 **AI-First Product Building**
Using AI to rethink workflows, reduce friction, and create new product experiences.

 Data-Driven Product Judgment
Turning customer signals, usage patterns, and business context into better product decisions.

Strategic Business Acumen
Connecting market needs, company goals, competitor research, financial tradeoffs, and go-to-market realities into product decisions that create durable business value.

Technical Depth
Working credibly with engineering teams across cloud infrastructure, distributed systems, scalability, and reliability.

Cross-Functional Collaboration
Aligning engineering, design, business, and customer stakeholders around clear problems and measurable outcomes.

What's my modus operandi?

Agency

 **Human-Centered**
 Use cases for clients, understanding motivations, intentions, and collaborative alignment

 Thoughtful
Deliberate thinking, simplicity, attention to detail, and long-term orientation.

MANAGER NOTE

“It was a lot of fun having you on the team this summer, and it was a really cool project! Your ownership and bias for action were amazing. Thank you Shankar!”

Senior Manager at AWS, Cloud Optimization

2026 SR. PRODUCT MANAGER TECHNICAL - EXTERNAL SERVICE INTERNSHIP @ AWS

What I can geek out on

 Behavioral psychology

What I Studied

Feb 2023

Product Management Fellowship

NextLeap

 Bangalore, India

Selected as a Top Fellow with 2nd rank in NextLeap's Product Management Fellowship, focused on structured product thinking, customer pain-point analysis, and capstone problem solving.

A dark blue rectangular badge with rounded corners. On the left is a small white square icon containing a stylized blue 'e'. To the right of the icon, the text 'Sep 2018 - Dec 2018' is written in a small, light blue font. Below this, the text 'Advanced AI/ML Certification (ML & Deep Learning)' is written in a larger, white font. At the bottom left, the text 'IIIT Hyderabad' is written in a small, light blue font.

Completed an advanced AI/ML certification focused on machine learning and deep learning, placing 2nd in the capstone project.

1 project ▾

Bachelor of Engineering, Computer Science
PES University
Bangalore, India
Graduated with a 9.5 CGPA, ranked in the top 5% of the class.
